Adobe Photoshop

Whether you are a first-timer looking to learn Photoshop, or already have experience with Photoshop or similar graphics programs and want to build your knowledge, this 8-week “jumpstart” class will provide you with the skills and knowledge you need to complete rewarding graphics projects from restoring old photographs to creating snazzy marketing flyers! Extensive hands-on practice will develop your knowledge of image production, masking, selection techniques, image resolution, implementing layers, creating tones, cleaning up images, blending modes, applying filters and more. Knowledge of Windows operation is essential. Students who wish to keep copies of their work files from class will need to provide storage media (flash or jump drive.) \$80

February 14-April 3 Tuesday 6:00-9:00 p.m. WHS G-11

New Class

What's New on Windows 7?

This single night overview class will highlight the new features on Windows 7. Students are welcome to bring their own laptops with Windows 7 to follow along. Choose your session. \$10
